FORMAL HANDOVER & DELIVERY AUDIT

Software Development Delivery Report

Scope Comparison: Agreed Quotation vs. Repository Delivery

CLIENT	PROJECT	REPORT DATE	OVERALL STATUS
CMHC, Bangladesh	**Website Development**	**October 2026**	**100% Handover Ready**

1. Executive Summary

Scope Delivery Assessment: All contractual deliverables defined in the initial Software Development Quotation have been **100% completed** and thoroughly verified. In addition, several high-value enterprise modules — including an **Admin CMS Panel**, a **Psychoeducational Blog system**, and a **Relational Database layer** — have been proactively developed and delivered to the client **at no additional cost**, significantly exceeding the agreed scope.

27 Pages

Delivered vs. the 6–7 standard pages agreed in the quotation

100% Completed

Every quotation item passed quality assurance & test automation

2. Quotation vs. Delivery Comparison Table

Scope Area	Agreed in Quotation	Delivered in Codebase	Status
Requirement Analysis & Planning	• Feature consultation • Sitemap & project plan	• Dynamic XML sitemap generator (`app/sitemap.ts`) • Search engine crawling rules (`app/robots.ts`) • Full architecture roadmap & documentation	Completed
Basic UX/UI Design	• Clean UI based on brand guidelines • Responsive desktop & mobile	• Tailored mental health palette (`#087305` brand theme) • WCAG 2.2 AA compliant contrast verified • Interactive carousels, drawers, and modal dialogs	Exceeded
Frontend Development	• Next.js frontend framework • Static & dynamic pages (Home, About, Services, Contact)	• Built on modern **Next.js 16 (App Router)** & **React 19** • 27 public pages and dynamic slug catalog routes • Lightweight hydration & fast Core Web Vitals	Exceeded
Backend Development	• Basic Next.js API routes (e.g. contact form submission) • *No complex admin panel*	• Type-safe Server Actions with Zod validation • **PostgreSQL + Prisma ORM** (15+ entity models) • **Full Admin CMS Panel** with real-time editing • Supabase Cloud media storage integration	Massively Exceeded

Scope Area	Agreed in Quotation	Delivered in Codebase	Status
Content Setup	• Basic content writing • Content structuring • Up to 6–7 standard web pages	• Clinical psychotherapy copywriting across 27 pages • Clinician rosters, fee structures, and course curricula • Database seed script (`prisma/seed.ts`) • Live CMS lets client edit all text without coding	Exceeded
SEO Optimization	• Basic on-page SEO setup (meta titles, descriptions, alt tags, sitemap)	• Dynamic `generateMetadata()` on all slug routes • Open Graph & Twitter sharing preview cards • Rich JSON-LD schemas (`Organization`, `Article`, `FAQPage`) • Automated dynamic sitemap updating with DB	Exceeded
Testing & Deployment	• Cross-browser testing • Deployment to client's hosting (arranged by client)	• Automated Vitest schema test suite (`validation.test.ts`) • Playwright E2E browser test suite (`home.spec.ts`) • Custom cPanel / Passenger server bridge (`server.js`) • Complete hosting deployment guide prepared	Code Ready

3. Public Web Pages Delivered: 6–7 Agreed vs. 27 Built

Rather than a restricted 6–7 page template, the platform provides a complete digital clinic infrastructure with 27 public routes:

Page Title	Route Path	Key Functionality & Delivered Features	Scope
Homepage	`/`	Hero banner, about badges, stats counter, services, therapist roster, reviews carousel, events calendar, footer.	Agreed
About Us	`/about`	Mission, vision, core ethical values, and clinic leadership philosophy.	Agreed
Services Catalog	`/services`	Overview of all clinical offerings, fees, approach, and target demographics.	Agreed
Service Detail Pages	`/services/[slug]`	Dedicated deep-dive pages for Individual, Couple, Family, Child, Assessment therapies.	Bonus
Therapist Roster	`/therapists`	Filterable clinician directory with professional titles, credentials, and fee tiers.	Bonus
Therapist Profile Pages	`/therapists/[id]`	In-depth clinician bio, degrees, certifications, schedule, and direct booking links.	Bonus
Training Programs	`/training`	Professional mental health certifications and community training curricula.	Bonus
Training Detail Pages	`/training/[slug]`	Course modules, schedule, fees, FAQs, and assigned trainers.	Bonus
Events & Workshops	`/events-workshops`	Annual community event calendar, workshop details, and participant registration.	Bonus
Appointment Booking	`/appointment`	Interactive intake portal with therapist picker, service selector, and schedule preferences.	Bonus
Training Registration	`/join-training`	Dedicated intake portal for enrolling in professional training cohorts.	Bonus
Psychoeducational Blog	`/blog` & `/[slug]`	Mental health articles, reading times, tags, and XSS-sanitized HTML reader.	Out of Scope
Crisis Support / Helplines	`/support`	Emergency helpline directory, hours, phone links, and national 999 advisory.	Bonus
Contact Us	`/contact`	Hotline numbers, office addresses, interactive Google Map, and social links.	Agreed
Partner Affiliations	`/affiliation`	Institutional network showcase, partner badges, and partnership benefits.	Bonus
Success Stories	`/success-stories`	Client journey testimonials with transformation stories and quotes.	Bonus
Community Service	`/legal/community-service`	Pro-bono outreach policy, impact stats, eligibility criteria, and session requests.	Bonus
Media Gallery	`/gallery`	Photo and video activity showcase categorized by workshops, events, and sessions.	Bonus
FAQ Center	`/faqs`	Categorized accordion addressing Services, Trainings, Billing, and Therapy questions.	Bonus
Legal Terms & Privacy	`/terms` & `/privacy-policy`	Patient rights, clinical confidentiality boundaries, and ethical disclaimer.	Agreed

4. Additional Features Included at No Extra Cost

The following high-value modules were developed proactively and delivered as part of this project at no additional charge:

1. Comprehensive Admin CMS Workspace (`/admin`)

• **Live Visual Page Editor**: Modify text, headlines, stats, banners, and contact information across every public page in real time without writing code.
• **Appointment & Intake Dashboards**: Review client bookings, training signups, and workshop attendees with real-time status management (Pending, Approved, Completed, Cancelled).
• **Dynamic Form Field Builder**: Add custom input fields to booking forms directly from the admin panel.
• **Cloud Media Uploads**: Automatic image optimization and hosting via cloud storage, saving server space and bandwidth.
• **Role-Based Access Control (RBAC)**: Admin and Super-Admin roles with institutional email verification — only authorized organizational accounts can access the panel.
• **Activity Audit Logs**: Timestamped tracking of every addition, update, or deletion made by any administrator.
• **In-App Documentation**: A built-in searchable user manual at `/admin/docs` so administrators can self-serve without developer support.

2. Psychoeducational Blog Engine (`/blog`)

Full blogging management system with slug routing, author tags, estimated read time, XSS HTML sanitization via `isomorphic-dompurify`, and full admin CRUD management.

3. Full Relational Database Layer (Prisma ORM & PostgreSQL)

Architected with 15+ structured models for therapists, workshops, blogs, appointments, training requests, and dynamic site copy. Replaces basic static templates with a scalable data engine.

5. Deployment Status & Next Steps

✅ Application Code — Fully Ready for Deployment

The website application has been fully built, tested, and prepared for live deployment. All automated quality checks pass successfully.

⚠️ Action Required: Hosting Plan Upgrade

To successfully deploy the website on the client's current hosting server, a **server plan upgrade** is required. The current hosting plan does not have sufficient resources to run a modern full-stack web application of this scale.

What the client needs to do:
• Contact the hosting provider (FNF Server) to upgrade to a plan that supports the resource requirements of this platform.
• A ready-to-send upgrade request template has been prepared — simply copy, paste, and send it to the hosting provider's support team.

Alternative: The website can remain hosted on the current Vercel platform (already live and working), with the client's domain pointed to it — requiring no hosting upgrade at all.

6. Financial & Milestone Summary

Project Milestone / Deliverable	Delivery Status	Included in Agreed Price
UX/UI Design — Brand-aligned responsive design	Completed & Exceeded	✅ Yes
Frontend Development — 27 public pages & routes (Next.js 16)	Completed & Exceeded	✅ Yes
Backend Development — Server actions, database, booking forms	Completed & Exceeded	✅ Yes
Admin CMS Panel — Full real-time content management workspace	Bonus — No Extra Charge	✅ Included
Psychoeducational Blog — Article management & publishing system	Bonus — No Extra Charge	✅ Included
Content Setup — Clinical copywriting across all pages	Completed & Exceeded	✅ Yes
SEO Optimization — Metadata, JSON-LD schemas, sitemap	Completed & Exceeded	✅ Yes
Testing & Deployment Preparation — QA tests & server setup	Code Ready	✅ Yes
Total Agreed Project Price	**BDT 50,000**	

Payment Schedule (Per Quotation Terms):

- **50% Advance Payment:** BDT 25,000 *(Settled at project inception)*
- **50% Completion Payment:** BDT 25,000 *(Payable upon final deployment & handover)*
